

West River Soft-Tip Dart League

Draft League, how it works!

We will be taking signups for a draft league for Friday nights. Due to the nature of this league we will split the league in half between Clock Tower Lounge and Teddy's Sports Bar to keep as many players together and around their friends as much as possible.

All players will be listed individually and ppd's taken based on a 5 year history report, using the most recent ppd for that person. If we have 24 people, we have 6 teams, or 48 people 12 teams. We then add all ppd's together and divide that number by number of teams to come up with an overall team ppd or salary cap.

On draft day we will draw a person for each team and that person will then deduct his or her ppd from the salary cap and draft their 3 remaining players to fill the team.

This league is not only fun but very fair, teams will be very close. No spot darts are necessary.

However, this only works if all people participating show up, which is why it is very important to list whether you want to be a full or part time player on the team. Part time players will go last in the draft and will most likely be used as subs if the need for one arises.

If you have any questions, please don't hesitate to call.
Have fun & good darting!
